*Please Note: Due to COVID-19, we are doing our best to limit the amount of germ sharing in class. This is especially difficult at the elementary level because we love to use manipulatives for hands on learning ("When are our bodies are going our brains are growing"). That being said, a lot of the things we enjoy using in our class have always been shared in the past. For our literacy/math centers, we will have 1-2 class sets that will be sanitized after every use. However, if you would prefer your child use their own manipulatives, please check out the following list. These are optional.
